

we feel anyone who wants to be on the "No Call List" should have all of the people trying to call them and pester them eliminated. Businesses included! We do not want anyone calling us that we have not given our phone number to! We, in fact, changed from a phone in our home to cell phones to eliminate being disturbed by callers we DID NOT want to speak with. If there is ever a book put out with cell phone numbers in it, we WILL get on the NO CALL LIST for that ASAP. Keep things the way they are please!
